ABSTRACT.

[Pension—Commutation— Ranga Rau, MRA, B., Pensioner —Medical examination.]

MRA. B. Ranga Rau is informed that his age next birth day being taken to be 57 years the capitalised value of ——— ±Rs. 7-3-0 ∓ of his pension will amount to about Rs. 828— ; the amount may be less if the medical certificate directs any addition to his age; If he wishes to commute his pension on these terms, he should appear before the D.M.O, Bellary to be examined before 15-4-32

furthermore the table of present values on the basis of which the amount has been calculated is subject to alteration at any time without notice and consequently the amount calculated is subject to revision.

2. The Medical Officer should subject the pensioner (whose identification marks are given in the application for commutation) to a strict medical examination, requiring him to give such information as to his health and habits as is usually supplied by persons proposing to assure their lives in Assurance companies and should report in the form prescribed in G.O. ~~I am~~ / ~~We are~~ of opinion that Mr. Baskara Rangu Rao ~~is~~ / ~~is not~~ in good bodily health, and ~~has~~ / ~~has not~~ the prospect of an average duration of life.

~~I do~~ / ~~We do not~~ recommend compliance with his application to be allowed to capitalize a portion of his pension, and his age for this purpose should be taken at 80 years, i.e., 23 years, more than the actual age. ~~I~~ / ~~We~~ have found upon the applicant marks corresponding with the identification marks described in the application for commutation of pension.

Reasons for (a) Non-compliance of application

or

(b) Recommendation of increase in years above actual age.

Applicant is slow in movement, flabby, has a high blood pressure, albumen in urine, looks much older than his years. Putting his age as 80 would give him an expectation of life of 5 years.
